

HEALING PATIENTS. HEALING FAMILIES.
HEALING COMMUNITIES.

Decades of Benefit to North Brevard

Healing Experiences For Everyone All The Time®

The Vital Role of Safety-Net Hospitals

“Public and safety-net hospitals play a vital role in our nation’s health care system, delivering care and providing access to essential health and social services in underserved communities... public hospitals represent just 2 percent of the nation’s hospitals.

In addition, more than half of public hospital patients are racial and ethnic minorities, and a majority of patients are uninsured or qualify for Medicaid. Public hospitals have long led the health care field in providing quality care to diverse and vulnerable communities.

They are especially committed to helping reduce racial, ethnic, linguistic and socioeconomic health care disparities.”

American Hospital Association

North Brevard’s Safety Net

Your North Brevard County Hospital District d/b/ a PARRISH MEDICAL CENTER (PMC) is proud to be Brevard County’s only independent, **PUBLIC**, not-for-profit community medical center. Since 1958, PMC has served the community of North Brevard with distinction and has been recognized as One of America’s Finest Healing Environments®. And, since 2016, serving as

Parrish Healthcare, the nation’s first and only integrated care certified health system. Parrish Healthcare is the culmination of our belief that collaborative partnerships are the way to improve quality, safety, service and reduce costs. Parrish Healthcare includes Parrish Medical Center, Parrish Medical Group and Parrish Health Network.

It is an honor to be designated as a public, not-for-profit, health system. It means that every dollar earned is a dollar invested in programs, services, technology, and health professionals dedicated to improving the health and wellbeing of our North Brevard community members. Decisions about the health priorities in which to invest available resources are made based on the results of a comprehensive community health needs assessment, specific to North Brevard, that Parrish conducts every two years; input from a community health advisory committee; and other community stakeholder groups.

As your independent, public, not-for-profit community health system we do not answer to corporate investors or shareholders. We answer to the citizens of North Brevard. This brief provides highlights demonstrating the many ways we are fulfilling our mission. And, doing so, with **ZERO TAX DOLLARS FOR MORE THAN 28 YEARS.**

“I trust every person at Parrish Medical Center with my care and the care of my family and friends,” James said. “I tell everyone how lucky we are to have this hospital in our community...James said he recognized that every person had a special part to play in his getting better...They did it so well...I can’t thank them enough.”

James—Titusville Resident

OUR COMMUNITY

Our primary service area is North Brevard County, which includes communities from the Beach Line (SR528) north to the Volusia County line and west to the Orange County line. (Source: Intellimed, zip codes 32754, 32775, 32796, 32780, 32927, 32926))

Social Vulnerability Index

High Risk

75th to 95th percentile

The Social Vulnerability Index information is based on the CDC data related to 4 social vulnerabilities: Socioeconomic Status, Household Characteristics, Racial & Ethnic Minority Status, Housing Type & Transportation. In this analysis, Social Vulnerability means: Risk = (Vulnerability-Resources) * Volume. To mitigate risk, a population must have the same magnitude of resources as it does vulnerability.)

\$221 MILLION

TOTAL COMMUNITY INVESTMENT ZERO TAX DOLLARS FOR MORE THAN 28 YEARS.

A DECADE OF COMMUNITY BENEFIT

\$221,742,777 Total Community Investment

(Includes but not limited to charity care, community building and benefit initiatives)

\$9,364,810 Community Contributions

(cash, in-kind donations/sponsorships)

\$2,689,933,411 Medicare Shortfall/Underpayment*

\$627,540,021 Medicaid Shortfall/Underpayment*

\$163,203,083 Uncompensated Care

(Care provided to uninsured, homeless, most vulnerable individuals who may not otherwise have received care)

***MEDICARE/MEDICAID UNDERPAYMENT** (Source: American Hospital Association)

Payment rates for Medicare and Medicaid, with the exception of managed care plans, are set by law rather than through a negotiation process, as with private insurers. These **payment rates are currently set below the costs of providing care**, resulting in underpayment. In 2020, CMS paid hospitals only 84 cents for every dollar spent caring for Medicare patients and only 88 cents for every dollar spent caring for Medicaid patients. *For more information visit: www.aha.org/fact-sheets/2020-01-07-fact-sheet-underpayment-medicare-and-medicaid*
